Forecast for Friday 27 Aug 2021

Weather: A dry day with prolonged sunny intervals in the morning. Cloud will build during the afternoon, but still with a few sunny spells at times. The best of the sunshine likely in the west. The cloud will eventually break up through the evening, with an increasing number of clear intervals into the night.

Chance of cloud free mountain/hill tops above 600m: 80%.

Visibility: Poor in any early morning mist and fog patches. Otherwise very good visibility of surrounding hills throughout the day with most cloud staying above the summit, but some patches likely affecting eastern hills above 600m at times. These most likely during the afternoon.

Forecast for Saturday 28 Aug 2021

Weather: A clear night, with mist and fog patches forming around dawn. Some cloud covering low slopes as the fog lifts. From mid-morning onward, it will be dry and sunny with just some fair-weather cloud bubbling up through the afternoon. Remaining dry with clear intervals into the night.

Maximum wind: Northeasterly 10-15mph.

Chance of cloud free mountain/hill tops above 600m: Near 100%.

Visibility: Locally poor in any early morning mist and fog patches, and on slopes above 300m as the cloud lifts. Otherwise, cloud staying above the summits and allowing for very good visibility of distant hills.

Temperature: **Valleys:** Plus 9 Celsius, rising to Plus 20 Celsius.
At 600m: Plus 6 Celsius, rising to Plus 14 Celsius.
Freezing level: Above the summits.
